

ENVIRONMENTAL POLICY

Comsylv Integrated Construction Limited is committed to protecting the environment, preventing pollution and ensuring sustainable development by implementing and maintaining an Environmental Management System (EMS) that complies with the requirements of ISO 14001:2015. Our EMS is designed to manage the environmental impacts of our operations related to Civil & Building Construction Services, Structural Steel Fabrication and installation, Contract Administration, MEP and Project Management Services for the Private and Public Sectors.

Our primary objective is to identify, manage and control our environmental impacts through the following principles:

- **Compliance:** We comply with all applicable environmental laws, regulations and other requirements related to our operations.
- **Continual Improvement:** We strive to continually improve our environmental performance by setting and achieving environmental objectives and targets, implementing best practices and by monitoring and measuring our environmental performance.
- **Prevention of Pollution:** We are committed to preventing pollution by controlling the generation, handling and disposal of hazardous waste, reducing energy consumption, and minimizing greenhouse gas emissions.
- **Resource Conservation:** We conserve natural resources by reducing waste, reusing materials, and recycling as much as possible. We also encourage the sustainable use of resources by our suppliers and contractors.
- **Communication and Engagement:** We communicate with our employees, customers, suppliers, and the public about our environmental policy, objectives and targets, and provide opportunities for feedback and suggestions.
- **Leadership and Commitment:** We provide strong leadership and commitment to the implementation of our environmental policy and EMS, and ensure that all employees understand and support our commitment to environmental protection.

We regularly review our environmental policy and EMS to ensure that they remain relevant and effective, and to identify areas for improvement. We set environmental objectives and targets that are measurable and achievable, and we regularly monitor and evaluate our performance against these objectives.

At **Comsylv Integrated Construction Limited**, we are committed to protecting the environment and achieving sustainable development through the implementation of an effective EMS that meets the requirements of ISO 14001:2015.
